RE: (child's name)

Dear (casehead)

This is to let you know that the last date (insert child's name) will have MC+ managed care coverage in (insert name of health plan) is (final date enrolled with health plan). MC+ coverage for the child will be in MC+ fee for service until notified by the Division of Family Services.

After this date use the red MC+ health insurance card to get services for the child. Do not use the MC+ health plan card to get services. Go to providers who take MC+ fee for service to get covered services. You can call 1-800-392-2161 for a list of providers in your area.

The reason for this is because he/she turned 19 and is no longer an eligible child under the MC+ program. The Division of Family Services will be reviewing the case to see if the child can get MC+ coverage as an adult. The Division of Family Services will notify you of any changes in coverage.

If you have any questions, please call the Recipient Services Unit at 1-800-392-2161.

Sincerely,

Susan Eggen
