

YOUR CHILD CARE INVOICE LOOKS DIFFERENT!!

Your invoice has changed. These changes were made to meet U.S. Postal Service requirements and to reduce mailing costs. Beginning with this invoice, your invoice will be printed on a single page.

Please note some of the other improvements made to your invoice. For example, we have added the **state reimbursement rates** for your area.

For providers accredited by a state or national accrediting organization, we have added an **Accreditation (ACRD) indicator**. For licensed providers serving 50% or more state subsidized children, we have added a **Disproportionate Share (DISP) indicator**.

There will no longer be a carbon of your invoice. If you wish to retain a copy for your records we recommend you **make a copy** prior to submitting your invoice to the local Family Support Division Office for payment.
