## **Resource Provider Training Babysitting Fees**

This Practice Point is in response to a Continuous Quality Improvement request to clarify policy on babysitting fees for resource parents attending STARS pre-service training and in-service training.

Policy provides for the payment of \$2.00 per hour per child (biological and/or foster) for babysitting fees to the resource provider when they attend in-service trainings and after they are licensed, for when they attended pre-service training.

This payment includes the entire time that the child(ren) are in the care of the babysitter, including the travel time for the resource provider to and from the babysitter's residence.

**This payment does not apply to any other child care services.**
