

Practice Alert

The purpose of this practice alert is to advise Children's Division staff that the revised Child Care Provider Registration Background Screening form (CD-125) and the Provider Registration Renewal Background Screening Request form (CD-124) introduced in Memos CD09-20 and OEC09-07 are to be used **only to register child care providers and appropriate members of their household** with the Family Care Safety Registry (FCSR). These forms contain information relating specifically to the Child Care Subsidy Program and are not appropriate for use in registering providers of other services.

Individuals required to register with the FCSR for Alternative Care Programs are to continue using the Missouri Department of Health and Senior Services Family Care Safety Registry Worker Registration form, MO 580-2421(FP). This form can be found at <http://www.dhss.mo.gov/FCSR/AppsForms.html> . Local offices are to continue submitting the MO 580-2421(FP) form on yellow paper as the process has not changed.
