## **RESOURCE PARENTS AS CHILD CARE PROVIDERS**

The purpose of this Practice Point is to inform Children's Division staff that a resource parent that is also a child care provider cannot be authorized to be paid for providing care to any foster or adopted children placed with them.

Example: Jane Doe is a resource parent for Joe Smith. Ms. Doe is also a licensed child care provider, providing child care in her home. Joe is only 2. Joe cannot be authorized to Ms. Doe to be paid for child care services. Ms. Doe can utilize child care subsidy for Joe at another contracted child care facility.
