Practice Alert

Psychotropic Medication Management Training

All resource parents are required to complete Psychotropic Medication Management pre-service training prior to licensure. This requirement was introduced with memo CD19-50 and further information was provided with memo CD19-65.

For resource homes licensed prior to the memo CD19-65 publication, the resource parents must complete the required training prior to May 5, 2020. For currently licensed resource parents to receive in-service training credit for the 2 hour course, use the in-service training code V290.

Access to the required pre-service training are located at the [I am a Foster Parent](#) block on the web page <https://dss.mo.gov/cd/foster-care/>.
