-------	----------	------------

Issued by: Crystal Wenger – PDS - AC

Child Assessment and Service Plan (CS-1, CASP)

With the release of this practice alert, the Child Assessment and Service Plan will no longer require reassessments to be completed through the life of the case, nor will it require a review and signatures at each FST meeting. The Child Assessment and Service Plan will still need to be completed initially within the first 30 days, however no further updates will be required.

Any ongoing needs of the child or changes to the case plan should be reflected on the Social Service Plan.
